AUSTRIA  GARANTIE

YOUR PARTNERS FOR INSPECTION AND FOOD CERTIFICATION, FROM ORGANIC TO GLOBAL-GAP – MARKET LEADERS AT HOME, SUCCESSFUL IN EUROPE AND ALL OVER THE WORLD.

The leading inspection bodies in Austria and Switzerland are now working together, to combine our strength on the international market. This cooperation means a wider range of services for our clients: more information, better customer service, and a more complete spectrum of inspection and certification possibilities.

SERVICE IS OUR FIRST PRIORITY

As a team, our commitment to quality puts service at the top of our priority list. A single inspection covers all of the directives and regulations relevant to your business. Our well-qualified personnel and experienced inspectors guarantee our clients not only competent inspection and certification procedures, but also the very best service and the highest credibility!

HIGHEST QUALITY INSPECTIONS

Specific local conditions are taken into account during all of our qualified inspections as a matter of course. A large part of our work involves ensuring sustainability and maximal food safety – a great advantage for your product!

AFFORDABLE QUALITY

Our streamlined organizational structures ensure our clients the best quality at affordable rates.

YOUR ADVANTAGES AS A COMPETITOR ON THE INTERNATIONAL MARKET:

- One place for all your regional and international certification needs: As market leaders in our home countries, our certification ensures a high acceptance of your products.
- Our reliable quality assurance systems in the countries of origin guarantee maximal product security for all your imported goods.
- Combined services: Inspection and certification according to EU and Swiss organic regulations, NOP, JAS, BIO SUISSE, DEMETER, Naturland and further norms and GLOBALGAP.
- Expert consultation on import application formalities and prompt completion of all import documentation.
- Competent contact people, who are familiar with the specifics of your location.
- Our combined services mean more affordable rates, and the assessment of various standards all in one inspection lowers inspection costs.
